Criminal Justice Diversion

Congressional District: OR-04

**FY 99 Funding:** \$496,328

Project Period: 9/30/97 - 8/31/00

Eugene, OR

SM52140

Using a quasi-experimental design, this project is evaluating the effectiveness of a program for pre- and post-booking diversion of people with co-occurring serious mental illnesses and substance use disorders.

*Lane County*

School Action Grant

Congressional District: OR-04

**FY 99 Funding:** \$135,130

Project Period: 9/30/99 - 8/31/01

Eugene, OR

SM53007

This project -- utilizing the Patch Approach, which includes a wrap around process and the values and philosophy of a system of care -- is designed to improve the stability of at-risk children and families by providing a collaborative community support system that links existing services.

Children's Mental Health Services  
Congressional District: OR-03  
**FY 99 Funding:** \$1,244,977  
Project Period: 9/30/98 - 8/31/03

Marylhurst, OR  
SM52297

The Clackamas Partnership, a collaborative entity of families, child welfare, education, health, mental health, juvenile justice and private providers, is creating a comprehensive, county-wide, community-based system of care for children and their families who are faced with complex and enduring mental health challenges. The Clackamas Partnership and Clackamas County Mental Health Center will: 1) integrate currently fragmented services around the strengths and needs of families through the creation of Child and Family Teams; 2) enhance the service array so as to provide community-based mental health and non-mental health services to a clearly defined target population, those most at risk for out-of-home placement; 3) improve access by conducting culturally sensitive and appropriate outreach, opening a number of pathways to services and empowering local families to recruit other families into services; 4) blend funds across agencies and shift dollars in order to provide the necessary resources for community-based services; 5) collaborate with the state-managed care plan, the Oregon Health Plan, in order to provide community services for the children and families who are in need of the most intensive services and whose care has not been covered by Oregon Health Plan; 6) weave training and technical assistance and on-going supervision into the daily work life of the care coordinators and staff so that they are knowledgeable enough and empowered enough to provide clinically appropriate, family-centered services; and 7) convene an evaluation team in collaboration with Portland State University's Regional Research Institute and Research and Training Center to implement national and local evaluation.

Children and Family Network

Congressional District: OR-05

**FY 99 Funding:** \$60,000

Project Period: 9/30/98 - 8/31/01

Salem, OR

SM52571

This project will strengthen organizational relationships, foster leadership and management skills, and identify technical assistance needs by establishing several new programs and expanding support for families with children or adolescents with emotional, behavioral, mental health disorders and related impairments. This will be accomplished by including family members in the design, delivery and implementation of training, technical assistance, and advocacy, by building on the previously established partnerships with local, county, and State agencies, both public and private, and family networks in the State of Oregon. The target population includes all Oregon families with children, adolescents or young adults under the age of 22 suffering from or at risk of developing serious emotional, behavioral, or mental health disorders. The Network will include culturally appropriate information, honoring family values and customs in all activities and materials. Moreover, the network will also embrace issues of biochemical illness as well as disorders relating to poverty, child abuse, and trauma.

Family Strengthening

SP08773

Congressional District: OR-02

**FY 99 Funding:** \$94,023

Project Period: 9/30/99 - 9/29/01

This project will document a parenting model as a community mobilization mechanization in a rural Oregon setting. The goals of this program are to: support family resilience in low income families with children in the middle school years; reduce familial substance abuse; reduce family management problems; increase community capacity to support families; and increase collaboration between agencies and organizations serving families. The Community Action Council will develop steps to select, adapt, and implement a parenting education model targeted at low-income families with children in the transitional periods between grades five through eight.

Predictor Variables

SP07957

Congressional District: OR-04

**FY 99 Funding:** \$49,989

Project Period: 9/30/96 - 6/30/00

The Predictor Variable project is investigating the effectiveness of a series of ecological, multidimensional interventions in impacting variables in the preschool years that are predictors for substance abuse. This project is testing interventions designed to facilitate social competence, self-regulation and control, cognitive development, and care giver involvement. Interventions will include environmental arrangements, activity-based interventions, and focused skill instruction or direct teaching.

Medford, OR

Family Strengthening

SP08767

Congressional District: OR-02

**FY 99 Funding:** \$96,123

Project Period: 9/30/99 - 9/29/01

This project will build on successful county service integration efforts and the agency's experience with high-risk families. OnTrack will build on the immensely successful Welfare Reform and Family Preservation models within the State by taking strong integrative efforts a step further to strengthen families who leave the service sites to insure longer term successes and self sufficiency. The cost and clinical effectiveness of the model will be thoroughly evaluated and the model and its implementation recorded in such a way as to be replicable.

Family Strengthening

SP08837

Congressional District: OR-03

**FY 99 Funding:** \$96,123

Project Period: 9/30/99 - 9/29/01

SEI is a community-based organization in Portland, Oregon that has developed a comprehensive prevention/education program for at-risk inner-city youth and their families, focusing on African Americans. This program will choose a family strengthening model using a consensus-based approach, involving other local community based organizations, public agencies, and families from the target population. SEI will document and evaluate the process of choosing, adopting, adapting, and implementing the Family Strengthening Model. The ultimate goal of this program is to contribute to the knowledge of effective methods for dissemination of "best practices," to put them into practice, and adapt them to local needs of the community.

High Risk Youth - Project Youth Connect

SP08268

Congressional District: OR-03

**FY 99 Funding:** \$422,610

Project Period: 9/30/98 - 9/29/01

Based on Self Enhancement, Inc.'s. (SEI) Relationship Model, Standards, Incentives and Services Continuum principles found successful in reducing violence and improving academic performance, this project will study the model's success in preventing or delaying substance abuse. Service components to be tested will include 1) one-on-one mentoring from an adult mentor; 2) group counseling with adult mentors; 3) after-school and summer programs including special instruction and activities in relationship building, drug and alcohol awareness, and gender specific issues; 4) academic support, including tutoring and monitoring grades and in-school behavior; and 5) opportunities for youth to build personal and social competence.

Community Partnership

Congressional District: OR-02

**FY 99 Funding:** \$0

Project Period: 9/30/94 - 1/30/00

Portland, OR

SP06883

The Community Partnership intends to expand substance abuse prevention services for youth and adults in Portland, Oregon, and the neighboring city of Gresham. The purpose of this project is to provide resources to work with Gresham leaders from business, education, substance abuse treatment, law enforcement, government, health care, neighborhoods and the faith community to develop and create a community partnership for substance abuse prevention; expand and enhance existing services within Portland to include Asian/American substance abuse prevention, youth/gang violence prevention, substance abuse and related HIV prevention, and youth/family unity and substance abuse prevention; and develop a coalition of both community partnerships aimed at sharing, expanding, and enhancing successful substance abuse prevention efforts in the two-city area served by this project.

*Insights Teen Parent Programram*

Parenting Adolescents

Congressional District: OR-03

**FY 99 Funding:** \$577,000

Project Period: 9/30/98 - 9/29/01

Portland, OR

SP08264

This program is a home visitation service to teen parents in Multnomah County who are on welfare, or eligible for welfare, and who are at risk for substance abuse, including tobacco. The key approach of the project will be weekly home visits to teen mothers and their children by a team of full-time Home Outreach Workers. The Home Outreach Worker will serve as an educator, advocate and mentor, and will provide guidance and instruction in the areas of parenting and child development, nutrition, budgeting, health care, family planning, and substance abuse prevention. This project will also refer teen parents to partnership agencies and provide follow-up services. The intent is not simply to refer, but to address barriers and support teen parents to stay involved in these services.

State Incentive Grants

Congressional District: OR-01

**FY 99 Funding:** \$2,999,918

Project Period: 9/30/97 - 9/29/00

Salem, OR

SP08078

The State Incentive Grant establishes a partnership between CSAP and Oregon that seeks to reduce substance abuse among youth in the State. This program serves as an incentive for Governor Kitzhaber to examine and synchronize the State-wide comprehensive prevention strategy with private and community-based organizations. Oregon is developing a strategy for community-based action State-wide that will lead to a reduction in substance abuse by youth, families and communities. The State will provide enhanced training and technical assistance to sub-recipients using proven prevention practices.

Targeted Capacity Expansion for Substance Abuse Treatment

TI11977

Congressional District: OR-02

**FY 99 Funding:** \$475,000

Project Period: 9/30/99 - 9/29/02

To enhance alcohol and drug abuse services to meet the needs of alcohol and other drug involved, serious, violent and chronic juvenile offenders.

*Multnomah County, Oregon*

Portland, OR

Targeted Capacity Expansion for Substance Abuse Treatment

TI11559

Congressional District: OR-01

**FY 99 Funding:** \$750,000

Project Period: 9/30/98 - 9/29/01

The project will address gaps in the service delivery system for youth with substance abuse and mental health disorders. Cross-trained staff will be located at three juvenile probation offices and 13 school-based health clinics to link current health and medical services with mental health and alcohol and other drug assessments in one location.

*Central City Concern*

Portland, OR

Community Recovery Networks

TI11449

Congressional District: OR-01

**FY 99 Funding:** \$177,830

Project Period: 9/30/98 - 9/29/01

The Recovery Association Project (RAP) will use a relational model of organizing that draws on the strengths and skills of persons in recovery. This model involves the sharing of recovery stories, discovering the common elements of story, and linking those stories to public policy as it pertains to treatment, thus creating an understanding of the relationship between personal experience, public policy, and the practice of large systems. RAP will focus initially on organizing the residents of the 553 alcohol-and drug-free housing units managed by Central City Concern. Through a variety of mechanisms, RAP will present research findings, policy and program ideas to providers, policy-makers, managed care plan executives and elected officials.

The Youth Intervention Network (YIN) screens and assesses all delinquent youth coming into Lane County Department of Youth Services (DYS) for substance abuse and mental health deficits. As indicated, these identified youth are assigned to treatment in a coordinated network of community treatment providers under the juvenile justice supervision of probation/parole officers and service coordinators who serve as case managers. Youth who are at high risk to re-offend receive intensive treatment/supervision services. A comprehensive MIS system links all participating agencies for vital information sharing.
